

K-LOVE radio has been a positive influence in our communittee. To replace it with an LPFM broadcaster could erase this positive influence. In these days of moral decline, I would urge you not to replace this programming. I am a mother of 5 children (4 of them under 7) and have seen the results of them listening to this broadcast almost exclusively. I don't have to worry about what commercials will be aired or what might come out of the DJ's mouth. I am urging you not to change this programming. Thank you for your consideration.
